

Cargo	Acetone
Nature of Hazard	Usually Colourless liquid with perceptible odour
	Completely miscible with water
	Highly inflammable (flashpoint below 21°C).
	Highly volatile
	The vapour is invisible, heavier than air and spreads along ground
	Can form explosive mixture with air particularly in empty uncleaned receptacles
	Heating will cause pressure rise, severe risk of bursting and explosion
Protective Devices	Goggles giving complete protection to eyes
	Synthetic rubber gloves
	Eyewash bottle with clean water

Emergency Action	
General	Notify police and fire brigade immediately
	Stop the engine
	No naked lights and no smoking.
	Mark roads and warn other road users
	Keep public away from danger area
	Use explosion proof electrical equipment
	Keep upwind
Spillage	Shut off leaks if without risk
	Drench with water
	Sewers must be covered and basements evacuated
	If substance has entered a water course or sewer or contaminated soil or vegetation, advise police
	Warn inhabitants-explosion hazard
Fire	Keep containers cool by spraying with water if exposed to fire
	Extinguish with water spray, dry chemical or alcohol foam
	Do not use a jet of water foam
First Aid	If substance has got into the eyes, immediately wash out with plenty of water for several minutes
	Remove contaminated clothing immediately
	Seek medical treatment when anyone has symptoms apparently due to contact with eyes
